WILLIAMS
JET TENDERS

THE WORLD'S LEADING
JET TENDER SPECIALISTS

Williams are the tenders of choice around the world because they work beautifully. Blending pure pleasure with practicality, getting from ship to shore has never been more stylish. Or more fun.

Push the throttle forward and feel the surge of adrenalin, thanks to the safe, versatile jet propulsion system. One day it's a high-performance ski boat, the next a smooth coastal cruiser. And at the end of every unforgettable day, it'll slip easily back into its garage or onto deck, because all our tenders are designed to work with the world's finest yachts.

THE TENDER OF CHOICE

Many of the world's leading yacht builders recognise the crucial role that a tender plays in their customers' boating experience. So when they need to specify tenders for their boats, they come to us. Our designers get together with their designers, ensuring our tenders work seamlessly with their garage systems. Our shared passion for impeccable standards guarantees that yacht and tender are a perfect match for quality and performance. It's why Williams is the tender of choice for the world's most prestigious yacht builders.

SPORTJET

Yes, it's a tender and will happily do all the things you've come to expect from a Williams tender, confidently and safely. But when it's not working hard, it likes to play hard. The blistering acceleration from the BRP Rotax engine makes it the go-to craft for legendary wakeboarding and waterskiing sessions. The sports hull delivers laser-accurate straight lines when you're towing. And when you need to turn, you can throw it into corners like it's on rails. This is an extreme watersports craft with reassurance of Williams' heritage behind it.

NOT SO TENDER

Every inch of the Sportjet has been designed to create the most versatile yacht tender in the world. It's lightweight and powerful. Compact and spacious. There's plenty of room for socialising and getting around in comfort. But when the mood takes you, it's a high-performance craft for wakeboarding, waterskiing and thrill rides.

Thanks to the latest BRP Rotax jet propulsion system, the Sportjet is clean, quiet and safe with no exposed moving propeller. A large aft platform and bathing ladder make it easy to get in and out. It has rear-facing seats so passengers can watch the action behind, and the spacious two-person helm seat means the driver can have company. For those who want the ultimate in power, performance, space and fun, the Sportjet is the only choice.

SPORTJET 345

This boat gives those with smaller yachts the opportunity to truly experience these high-performance, super-fun tenders. Designed to fit on the back of 16m+/52ft+ motor yachts, it might have a smaller LOA, but that doesn't stop it seating five adults. The BRP Rotax engine also packs a punch, while the sports hull gives impressive stability to create an exceptional craft. Whether you're pulling a skier or going in search of unspoilt turquoise coves and deserted golden beaches – it's always a pleasure.

SPORTJET 395

This beautifully designed tender is made to perform, in every way. The reliable, powerful engine gives you lightning quick acceleration, while the clever social seating configuration gets passengers even closer to the action at the helm. Plus, it can seat up to six adults – extremely impressive for a tender of this length. The increased tube diameter also improves stability, providing a dryer ride in chop, giving you greater freedom to go further, and do more. Enjoy endless memorable days of fun, relaxation and sporting action – whatever the conditions.

SPORTJET 460

The Sportjet 460 has added space and a bit more growl, with a lightning-fast top speed of 48mph (77kph). The specially designed hull plants it firmly in the water for safe, straight-line tracking, yet it grips hard in the turns. When you want it for more tender duties, it performs as a smooth, stable people carrier for getting to and from the jetty, and will fit on the back of 25m+/82ft+ motor yachts. It's equally at home as a standalone day boat for coastal exploring, as it is as a white-knuckle ski boat.

SPORTJET 520

Easily seating seven adults, the Sportjet 520 gives more space all round, whether it's stretching out on the sunbathing pad or packing everything into the three storage lockers. Don't be fooled by its size, the biggest Sportjet can hit a top speed of 52mph (84kph). Towing your friends is not only easy, it's safer thanks to the jet propulsion and sports hull, which is smooth and stable, both in straight lines and blasting round corners, or waiting at the jetty for your passengers to step aboard. Blissful day trips, adrenalin-fuelled fun sessions or practical tender duties – the Sportjet 520 is master of them all.
